

Autumn Term 1 - Seasonal Changes - Autumn

Seasons

There are 4 Seasons.

The Seasons are Spring, Summer, Autumn, and Winter.

The Seasons occur in a cycle.

Autumn

September
October
November

In **autumn**, the **weather** begins to get colder. The leaves start to fall from the trees. The amount of **daylight** becomes less. This means the **daytimes** are shorter and the **night times** are longer.

Deciduous Trees

(Leaves begin to die and change colour in the Autumn.)

- Birch tree
- Sycamore tree
- Oak tree

Evergreen Trees

(Leaves are green all year round.)

- Pine tree
- Spruce tree
- Holly tree

Day length differs depending on the season.

In the **Autumn**, the amount of daylight becomes less. This means the day times are shorter and the nights are longer than the summer.
