

BEECH HILL NEWS

Thursday 20th September

It is lovely to see so many parents viewing their child's work on Seesaw.

We would love to see more comments and questions from parents to help encourage the children in the classroom.

Please feel free to write a comment or leave a voice message to show your appreciation for the work your child has done!

If you would like any help with how to do this, please see your child's class teacher.

Thank you for your support.

Miss Jordan.

Half term dates for your diary

September

5th - Manor Heath Trip - Portugal

12th - Parents Coffee Morning

15th - Year 5 Residential Trip

24th - Year 2 Residential Meeting

26th - School Closes For Half Term 1.10pm

On Wednesday 12th September a very special delivery arrived in year 5. Each class in year 5 had a pot with 5 caterpillars inside.

There were some instructions to follow:

1. Don't shake the pot.
2. Don't tap the or drop the pot because they might get injured or die.
3. injured or die.

This is a very good opportunity because our science topic is living things and their habitats. We decided that every day we will write a special diary entry about the caterpillars and put a weekly update into the newsletter.

Let's hope they all turn into magnificent butterflies!

Caterpillar Updates

At first they didn't move and Miss Haigh said, "Don't worry if they are not moving." After sometime they started moving. Their heads were wiggling as if they were nodding and saying yes. We have to write a diary on them everyday! We need to observe their growth and as they grow up they will transform into beautiful butterflies. Eron (Denmark).

This week the caterpillars have almost gone to the top of the lid. They do look like they are about 1 centimetre long. The caterpillars have spikes on their backs now. I love caterpillars and I'm looking forward to seeing them turn into butterflies. Diya (Denmark).

Bikeability

This week in Year 4 Canada and Australia have enjoyed going to Bikeability. They have been learning to ride bikes and gain good balance skills.

They were excellent role models for the school and now know how to ride their bikes safely.

Class South Africa are looking forward to going soon!
